Product Description

2026 Cub Cadet PRO Z 972SDL-EFI

The Cub Cadet® PRO Z 972 L EFI 72-in. 38.5 HP* Commercial Zero-Turn Lawn Mower With EFI Engine features a triple 7-gauge fabricated steel cutting deck with top, bottom and side reinforcements. Equipped with maintenance-free spindles and pulleys to deliver peak performance with limited downtime. Hydro-gear transmissions engineered for quick ground speeds and smooth handling.

- Heavy Duty Fully welded 3/8 x 5" steel frame
- Cast iron pivoting front axle
- Hydro-gear ZT-5400 Series transmissions with external oil coolers
- Upgraded hubs, axle, & rim assemblies to withstand harsh conditions & extensive use
- 72" triple-7-gauge fabricated steel cutting deck with top, bottom and side reinforcements
- Lock-in or out self-leveling air-ride seat with 30 degrees of side-to-side swivel/15 degrees of travel left or right.
- Dual rear wheels and weighted front rims give this steep slope mower traction on up to a 46% grade. 12-volt outlet kit and electronic power deck lift included
- Fully adjustable air ride seat
- Deluxe Lighting package
- 3-Year / no hour limit warranty and/or 5-Year 1,200 hour warranty

Best Use

- **Commercial Landscaping Operations** - Ideal for high-volume mowing crews managing large residential and commercial properties.
- **Large Acreage Maintenance** - The 72-inch deck maximizes efficiency on expansive lawns and open fields.
- **Slope and Rough Terrain Work** - Built for stability and traction on challenging grades and uneven ground.
- **Municipal and Institutional Grounds Care** - Well-suited for parks, campuses, and large public spaces.
- **High-Productivity Lawn Care Services** - Designed for contractors needing speed, durability, and reduced downtime.
- **Professional Fleet Expansion** - A powerful addition to operations using [Cub Cadet technologies](#) for heavy-duty mowing applications.
